

Ship Bingo!

First step

Download a marine tracker app. Most are free for basic features. Or use the Teesport website link from Spark.

Second step

Choose an area of the world to find a boat.

Third step

Choose a boat at random. Its basic details will appear with port calls and previous route.

Fourth step

The task is to create a ten minute fact file about the city or country that the boat is travelling from (or to). The task undertaken regularly develops excellent research skills and presentation of info as well as international knowledge. Use Pages, Pic Collage or Keynote for presenting findings.

WHO WILL YOU BE?
