

TASK 2

Not too fast! The Queen did NOT like travelling quickly and ordered the driver to stop completely while she was eating. Can you work out how long it took the Queen to travel from London to Edinburgh? How long does it take a modern train?

The chart below gives the distances to each station. The Queen travelled at 40 miles per hour and stopped at each station for an hour to eat while they took on fresh fuel and water.

Work out the travel times below.
Both trains leave London at 9.00am

Journey	Distance (miles)	Time arrive	Time depart (after stop)
London - Peterborough	80		
Peterborough - York	100		
York - Newcastle	60		
Newcastle - Berwick	40		
Berwick - Edinburgh	60		

Queen's Train (40mph)

Journey	Distance (miles)	Time arrive	Time depart (after stop)
London - Peterborough	80		
Peterborough - York	100		
York - Newcastle	60		
Newcastle - Berwick	40		
Berwick - Edinburgh	60		

Modern Train (80mph)
